Community Meeting

Report from David Tudor (??),

1. Safe Communities Act—to help address drug problems such as crack, opioids, and meth. See attached handout.
2. Tidal Power: Looking for a local committee or Board to help with this. There may be some spin-off money for our wharves and harbours available.
3. Mental Health personnel will be available a couple of days a month at the medical center.
4. Salmon Cages:
 - They will be automated, providing only 1 job.
 - We want them out of the water.
 - Almost worth more than the lobstering industry.
 - Will meet with them on the 15th.
 - We want tidal Power to replace salmon cages on priority list.
 -

Note: In the fall we will be getting an electronic sign to record speed. It is a danger in Tiverton when people are trying to catch the ferry and when they get off the ferry.

Notes—Helen Ivens
